Subject: Proposed Landscape Agenda for CDD Meeting on June 26th

Chuck --

We agreed to have special Landscape Subcommittee/CDDs pre-meetings on your normally scheduled Bayside/Baycreek CDD meeting dates. We'd like to meet this month but I feel 1:00 PM is plenty early enough, if that is OK with your boards.

Here are some thought starters for the discussion:

1. Michael Spencer will quickly review where he is on the PL contract.
2. Plan implementation for next year:
  - a) Pelican Landing financial proposal being considered
  - b) CDD discussions re: your budget availability
  - c) How do we ensure the budgets are aligned?
3. Other items as time allows:
  - d) tree removal -- how, who and what budget?
  - e) Sluice gate remediation -- status?
  - f) Do we reuse cuttings for mulch?
  - g) Heavy pruning of shrubs -- Winter rather than Summer???
  - h) Flower schedule for Fall -- Spencer responsibility. Soil changes???
  - i) Bollards -- unsightly and a maintenance nightmare...other options???

Plus any other items you and your boards may think of. Let me know and I'll print out some copies for everyone to have on the 26th.

Regards,

-- Jack
