ATTENDEES:

Please identify yourself each time you speak to facilitate accurate transcription of meeting minutes.

Boards of Supervisors Bayside Improvement and Bay Creek Community Development Districts

Dear Board Members:

The Boards of Supervisors of the Bayside Improvement Community Development District and Bay Creek Community Development District will hold a Joint Regular Meeting on March 27, 2023 at 2:00 p.m., at the Pelican Landing Community Center, 24501 Walden Center Drive, Bonita Springs, Florida 34134. Members of the public may participate in the meeting, via Zoom, at <u>https://us02web.zoom.us/j/84137772934</u>, Meeting ID: **841 3777 2934** or via conference call at **1-929-205-6099**, Meeting ID: **841 3777 2934**. The agenda is as follows:

- 1. Call to Order/Phone Silent Mode/Pledge of Allegiance
- 2. Roll Call
- 3. Public Comments: Agenda Items

JOINT BUSINESS ITEMS

- 4. Staff Report: District Engineer Barraco and Associates, Inc
- 5. Continued Discussion/Presentation of Colony Parcels M & N Drainage Design/Permitting Peer Review Report (*to be provided under a separate cover*)
- 6. Waterway Inspection Report: March 2023 SOLitude Lake Management, LLC
- 7. Committee Reports
 - A. PLCA Landscape Committee
 - B. Colony Landscape Committee

JOINT BOARD ITEMS

8. Presentation of Monthly Budget and Year End Projection (to be provided under separate cover)

Boards of Supervisors Bayside Improvement and Bay Creek CDDs March 27, 2023, Joint Regular Meeting Agenda Page 2

- 9. Acceptance of Unaudited Financial Statements as of February 28, 2023
- 10. Approval of February 27, 2023 Joint Regular Meeting Minutes
- 11. Action/Agenda Items
- 12. Old Business
- 13. Staff Reports
 - A. District Counsel
 - I. Gregory Urbancic, Esq., Coleman Yovanovich Koester, P.A.
 - Update: Second Amendment and Restated Bylaws of Pelican Landing Community Association, Inc.
 - II. Daniel Cox, Esq.
 - B. District Manager: Wrathell, Hunt and Associates, LLC
 - I. Monthly Status Report: Field Operations
 - II. NEXT MEETING: April 24, 2023 at 2:00 PM

- This month's activities have been standard lake maintenance.

- We continue to add beneficial bacteria to the four outfall lakes A-2, A-17, D-8, F-12. We also add bacteria to F-1, F-6, F16, E-4 and E-5 to help reduce nutrients that cause algae blooms.

Additional observations:

- During this season it is likely that the littorals will enter winter dormancy. This is triggered by lower temperatures, less rain and sunlight. There may be an increase in brown coloration and a thinning of littorals during this time. This is a normal part of the littoral life cycle, dormancy usually lasts until the spring.

BAYSIDE IMPROVEMENT AND BAY CREEK COMMUNITY DEVELOPMENT DISTRICTS

Colony to CDD 03/20/23

On March 20, 2023 the Colony held its annual meeting as well as the monthly meeting. Bob Morris, treasure resigned and Ted Gravenhorst was appointed his replacement.

Amy Quaremba, Landscape chair, gave a report to update the community of the intent to renovate after Ian. A copy of the report will be distributed. John Watson and Jim Borneman were elected as new BOD members. Gina Hanft, secretary was appointed as liaison to the CDD. A special assessment to remediate and refresh the Bay Club was overwhelmingly approved.

It was acknowledged that the CDD should be involved with the placement of battery operated speed signs prior to installation.

Most of the agenda dealt with Colony specific internal affairs.

The CDD will aid the Colony in obtaining contractors and bids for additional hurricane landscaping requirements as noted on the inspection tour. About 8 years ago, when Gail Gravenhorst and I first started to work on landscape we were advised by Jack Lieber to attempt to rejuvenate these through hard cuts and pest spraying. This was done successfully at that time. The committee is planning to attempt this process again. Should this plan be followed, it will reinforce the importance of removing as much debris and downed trees as possible as they will be clearly visible when the Ficus is cut back. The last time around, the community was somewhat distressed because the hard cut plants take considerable time to recover and aesthetically there was some outcry. Incidentally, it had been recommended in the past, that the Ficus be removed and replanted with alternative material. This would likely be costly and disruptive. The Committee thinks it is practical to again give renovation a try, but a good bit of community education and understanding is required.

In closing, I would like to mention, for your information and community interest, that this week we are slated to have the Spring cycle replant of annuals. The selection is mixed color vinca in red, violet, and coral in the neighborhoods with bush daisies and coral vinca around the fountains. We were pleased with the current rotation and likely will repeat it next year.

Thank you for your time and consideration.

Submitted by Amy Quaremba for the Landscape Committee

Gail Gravenhorst Marty Hammack Gina Hanft Cheryl Hughes

44 45 46	FIRST ORDER OF BUSINESS	Call to Order/Phone Silent Mode/Pledge of Allegiance			
40 47	Mr. McCarthy called the meeting to order at 2:00 p.m. All present recited the Pledge of				
48	Allegiance.				
49					
50 51	SECOND ORDER OF BUSINESS	Roll Call			
52	All Supervisors were present for Bayside Improvement CDD. For Bay Creek CDD,				
53	Supervisors Janek, Addison and Travers were present. Supervisors McVay and Durney were not				
54	present.				
55					
56 57 58	THIRD ORDER OF BUSINESS	Public Comments: Agenda Items			
	Mr. McCarthy stated two people were designated to comment on the M&N Drainage				
59	matter; those comments will be heard at the appropriate time. Mrs. Adams stated Robert Loots				
60	and James Borneman submitted comment cards to comment on the M&N Drainage matter.				
61					
62	JOINT BUSINESS ITEMS				
63 64 65	FOURTH ORDER OF BUSINESS	Staff Report: District Engineer – Barraco & Associates, Inc.			
66	There was no report.				
67					
68 69 70 71 72	FIFTH ORDER OF BUSINESS	Continued Discussion/Presentation of Colony Parcels M & N Drainage Design/Permitting Peer Review Report (to be provided under a separate cover)			
73	Mr. McCarthy stated a copy of the Report was provided to each Board Member. Following				
74	Mr. Tilton's report, the Board will have a discussion before accepting questions or comments.				
75	Mr. Tilton stated he is a Professional Engineer licensed and registered in Florida since				
76	1983. His primary area of practice is stormwater. He worked on the Lee County Surface Water				
77	Master Plan in 1979 and an update in the early 1990s. He worked on the South Lee County				
78	Watershed Plan in the late 1990s for the South Florida Water Management District (SFWMD) and				
79	has been qualified as an expert in different types of hearings and in court hearings. He is qualified				

February 27, 2023

BAYSIDE IMPROVEMENT & BAY CREEK CDDS

to do this from the standpoint that he has done it for many years for other districts and has
worked as the District Engineer for several years. His firm is the District Engineer for a 12 or more
CDDs in Southwest Florida.

DRAFT

Mr. Tilton presented the Report and noted that he reviewed the plans and the stormwater calculations and SFWMD is the primary agency responsible for that portion of the permitting. He initially found three questions and a fourth question arose this morning in an email. While the engineering side is addressed in the Report, the legal side must be addressed by Mr. Urbancic or Mr. Cox. He noted the following:

88 > Some mapping on the erosion protection plan needs a slight adjustment.

89 > There is fairly high velocity where the three culverts are proposed to go into Lake 6, which
90 is not uncommon, but erosion protection needs to be added to the plans.

A drainage easement along the edge of the property adjacent to Lake 6 does not appear
to be necessary; part of this project goes into that a little bit. If it is not needed, he suggested it
could possibly be removed or the need should be verified. The pond fits within the platted Lake
6 area so he did not see a need.

A legal issue might exist with piping the water that currently comes across the site from
 a culvert under the roadway and into an open ditch to Lake 6. That will be replaced with a culvert;
 on the engineering side, he checked that the culvert is adequately sized. The legal issue is
 documentation stating who will operate and maintain it. If the CDD wants an interest, it must be
 addressed since it conveys water from off site. His understanding is that there is no easement for
 the ditch so the question of who will be responsible for any issues is unknown.

The level of design meets or exceeds all Florida building code standards, from a water
 management standpoint.

103 \succ There is a little bit more water quality than required, which is a positive.

104 > The parking lot meets or exceeds the elevation requirements.

105 > The allowable discharge from the site fits well in the perimeter elevation.

The finished floor elevation is looked at in two ways; freshwater flooding on the site and FEMA flooding which, in this area, would include surge. The latter is far above the on-site water level. Based on Florida building code and the FEMA elevation controls for a residential area like this, 1' can be added. The FEMA elevation for most of the site is 11'; the finished floor is proposed at 12' so that should address the issue for a few hundred years.

111 Mr. Adams displayed a map and Mr. Tilton identified the locations of various features, 112 including drainage and culverts on CDD property.

113 Mr. Nicholson stated Pelican Sound Boulevard routinely floods and asked how this project 114 will affect it, as it seems like drainage from it will be more circuitous. Mr. Tilton stated he has not 115 viewed the ditch from the ground. He noted that culverts are generally smoother, though 116 somewhat smaller in diameter. The 6' diameter pipe is sized to convey a 10-year event.

117 Discussion ensued regarding designs for various rain events.

Mr. Nicholson stated he was under the impression that all surface streets in The Colony were designed such that, in a 25-year event, standing water is expected on the streets but not in homes and it sounded like the margin of safety was narrowed in this zone. Mr. Tilton stated he was not aware that this area was designed for a 25-year event and noted that it is far above the minimum requirements; he would be surprised if they were designed to that level but he did not check. Lee County was in charge when this was designed and, generally, only required a five-year event standard. While some far exceed requirements, it would be rare.

Mr. Nicholson asked about garage parking, which is designed with an expectation of flooding. Mr. Tilton stated open parking lots are designed to five-year standards; garages depend on design as they can be designed above minimum flood elevations. He discussed elevations and stated the FEMA elevation is 11' and the Florida Building Code requirement for finished floor elevation for residential dwellings is 12'. He did not remember the specific garage elevation.

Mr. Nicholson asked how much the required standards mentioned are exceeded by. Mr. Tilton stated the water quality exceeded standards by 20% to 25%. The floor elevations met the minimum required standards based on Florida building codes. There are numerous safety factors built into the FEMA studies, including a 1' safety factor.

Mr. Nicholson stated questions were raised related to the calculation of permeable area and what land mass is included in the calculation. He asked if Lake 6 is included in the permeable area. Mr. Tilton stated it is not a yes or no answer; in water quality calculations, it is considered pervious because no pollutants are being added. From the standpoint of ground storage in the stormwater calculations it is considered impervious.

139 Discussion ensued regarding calculations related to water quality.

140 Mr. McCarthy stated there is a question of secondary storm designed street elevations in 141 parking lots; he discussed how changes to the Florida Building Code and municipalities adopting

their own standards might create confusion. In Estero, streets must be rated for 25-year storms.
The SFWMD standards are not his preference, as he is in a flood zone and there was tidal surge
resulting in 4" of water in his home. He surmised that Mr. Tilton is stating that, during a 10-year
storm, there might be water in the streets.

Mr. Tilton believed the design was based on the flow of water from the street based on a 10-year event. He did not look at the outside of the property as to what stage that would get to; the elevation calculated at the inlet on the edge of the road was below the level for a 10-year event. It might be below the level for a 25-year event but he did not look at that for that inlet, as it seemed to be accessible. For the 10-year event, the water was below the edge of the road and most of the roadway was accessible on the center line, though there could be water on the edge. Ms. Gravenhorst asked when the standards might be revisited and whether they might

153 be revised so residents who drive electric cars are able to drive in a 10-year storm.

Mr. Tilton stated the State is revising the water quality Environmental Permitting regulations but very little for water quantity and flooding depths. He noted issues with sea level rise and that there is no schedule for revisions to regulations. Driving depends on road conditions, what the vehicle can endure and the drivers' responsibility and judgment regarding safety.

Mr. Nicholson stated he is bothered by Mr. Tilton not knowing if this section of the road is designed to a 25-year standard and expressed concern that it might be the weak link in the community. Mr. Tilton stated to answer that fairly, he would need to review the entire community. Mr. McCarthy stated each road might not be designed to the same standard but they must assume the minimum standards that applied at the time were met.

163 Mr. Barraco stated he can speak on behalf of the Developer and Mr. Kayne can speak for 164 the CDD. He suggested asking Mr. Tilton to research the permit file to determine the original 165 design; as Mr. Tilton suggested, it is likely that some roads were designed to different standards.

Mr. Urbancic discussed Mr. Loos' four-page emailed memo and noted that questions were raised regarding the easement and whether a release and a replacement easement would be requested. He asked if the easements were dedicated to Bayside Improvement CDD.

Mr. Tilton stated he did not review the dedication of the easement adjacent to the pond, which is labeled as a drainage easement. The existing ditch is not in an easement, it just exists across the property. It might be more difficult to close it, from a legal standpoint, as it serves a purpose; however, it might be necessary, if the CDD wants to have the right to maintain it.

DRAFT

173 Mr. Urbancic noted there is a SFWMD easement in the vicinity.

174 Mr. McCarthy read from the email, "In addition to any engineering issues involving 175 stormwater systems for M&N there is, I believe, a legal issue that should be of interest. Since a 176 proposed stormwater system on M&N will transport all the stormwater that falls under Pelican 177 Colony Boulevard from the ponds in Terezzo and I believe also stormwater flowing under Spring Creek from Phase I, the owner of M&N will own and control a portion of the CDD's stormwater 178 179 system without, it appears, any legal agreement regarding responsibilities and liabilities between 180 the CDD and the owner of M&N. What is perhaps unique for the CDD is that this system, which 181 will be part of the overall CDD's stormwater system, is also the exact same internal stormwater 182 system for the entire project to be built on M&N. What further adds to the legal complexity is 183 that the property is now owned by the Developer yet at some future date legal ownership of the 184 M&N stormwater system will be conveyed to a condominium association."

185 Mr. McCarthy felt that the first issue is why part of the system is on private property and 186 maintained by a private entity and some is within easements and managed by an entity such as 187 a CDD or an HOA.

Mr. Urbancic stated the easements provide that, to the extent relocation is necessary to support development, the CDD will not unreasonably withhold consent to relocate. He speculated that there must have been some understanding that, at the time of development of the properties, some of the issues would need to be resolved. The CDD does not have permitting authority but someone should approach the CDD to discuss what it will accept and do.

193 Mr. McCarthy stated that is his expectation. In his experience, the County and the Village 194 are controlled locally, and, as a general rule, part of the stormwater systems are left to be 195 maintained by the property owner and an entity controls the surface water management system. 196 Prior to approval, the permitting authority will require a legal entity be designated to manage 197 the surface water management system, in perpetuity. In Pelican Landing, the procedure is to take 198 on maintenance of the lakes, control structures and major delivery systems to the lakes. His 199 expectation is that an easement for that conveyance will be dedicated to the CDD and consented 200 to by the CDD and that the CDD will take over management and maintenance of that part of it. 201 The rest of it, including the parking lots, parking lot catch basins, roads and roadway water 202 collection system, are owned and maintained by the PLCA, not the CDD. The CDD only takes 203 conveyance to the lakes and the control structures.

204 Mr. Urbancic stated he expects a draft easement will be needed to address the owner's 205 responsibilities and the CDD's responsibilities. SFWMD might have input or final review in 206 conjunction with the permit.

207 Mr. Barraco stated the area has two easements. One around the lake, which has more 208 than 20' around the control elevation for maintenance. That was reviewed by the Developer's 209 attorney and he believes they concluded that the easements are adequate for the water 210 management system. He suggested their attorney research it with District Counsel to ensure they 211 concur. The more important issue is the need for a significant conveyance bisecting the property; 212 he agrees with Mr. Tilton's assessment that the area needs to be maintained. The maintenance 213 for the on-site system will be the responsibility of the Association, including maintenance of that 214 pipe. He did not think there is concern about the Developer giving the CDD the same easement. 215 He noted the need to determine which entity will have primary and secondary responsibility.

216 Resident Robert Loos introduced resident and Civil Engineer Jim Borneman who did an217 extensive analysis of the project.

218 Mr. Borneman discussed his professional background and his opinion that the most important question is how the water management system will operate for the next 50 to 75 219 220 years. He felt that Pelican Sound Boulevard flooding and easement issues need to be settled and 221 that Mr. Barraco's statements differ from what he saw based on correspondence between 222 Barraco staff and the SFWMD related to the eventual takeover of Operation & Maintenance (O&M) of the water management system by the Ronto Group (Ronto). He observed that Lake 6, 223 224 listed as F15 on County maps, holds water from the Alterra lakes. He is concerned that, if Ronto 225 and the HOA control that, they control water flow for most of the community and parts of Pelican 226 Landing through the one lake. He recalled raising a possible conflict of interest with Barraco 227 representing multiple communities and the Developer and his concern about transparency 228 regarding the relationship between lawyers, developers and engineers hired by Ronto. He 229 believed questions should be asked and expressed his opinion that Mr. Tilton is very qualified. 230 He asked how much the CDD spent on the Report from Johnson Engineering. Mr. Adams stated 231 the original quote was under \$3,000 but the scope grew as additional information was requested. 232 Mr. Borneman opined that the CDD got its money's worth with the Report but it might only provide a cursory review. He questioned the findings and calculations regarding portions of 233 234 the lake considered pervious and impervious and expressed concern about the depth of the

Report's findings, given representations made by Barraco. Mr. Tilton stated that the Report indicated the lake was considered impervious for quantity calculations, so it would not be doublecounted in soil studies, but pervious for water quality.

238 Mr. Borneman questioned the Report's scope, given that numerous assumptions were 239 made, and agreed with the noted need for riprap at the end of the effluent pipe, the observation 240 of features to protect water quality during construction and the assessment that the easement was well constructed. He is worried about a 42" pipe that eventually leads to a 72" common pipe 241 242 for community water; he feels there should be a transition plan, including temporary culverts to 243 handle water flow at the beginning of the project. Noting that drawings submitted to SFWMD 244 indicated the connection of Collier Boulevard is included in Phase 2 of the two-phase project, he 245 asked where the water under Pelican Colony Boulevard will go at the start of the project. He 246 expressed his opinion that the study was not detailed enough but, while the CDD got its money's 247 worth with the Report, there are many questions to consider over the next 50 to 75 years. He 248 believes O&M of the lake includes water quality, recalled discussions about where testing is being 249 done and suggested monitoring the control mechanism on Lake 6 to get a baseline water quality 250 level, because, as environmental laws get stricter and Estero Bay protections are enacted, the 251 control mechanisms might be tougher. Speculating that the HOA might lack the expertise or 252 interest in maintaining water quality, he recommended the CDD have operational control.

Mr. Loos is worried that a legal issue could arise due to the proposal for the M&N system to be combined with the overall CDD system. He believes liability could exist since the Engineer's Report demonstrated that things could go wrong. He recalled SFWMD advising that the Developer does not meet the criteria as the operating entity for this type of residential development and expressed his opinion that the condominium association would be a worse choice. He recommended the CDD remain the operating entity, discussed the reasons and noted other issues with water management that should be addressed.

260 Mr. McCarthy asked Mr. Barraco if his design separates the off-site flows from the on-site 261 flows. Mr. Barraco stated the plan is consistent with the permit; he supposed the flows could be 262 separated but he did not see any benefit to that; he would need to research the issue.

263 Mr. McCarthy recalled Mr. Loos' opinion that a liability could be created if one party's 264 water is affecting another party's water.

265 Mr. Barraco noted that the CDD is responsible for the major backbone of the system and 266 the other smaller systems are responsible for their own sites. He opined that the CDD is the O&M 267 entity for the backbone system, which is meant to attenuate the stormwater runoff so there is 268 no flooding and to provide the water quality for the major system, so he saw no purpose or 269 benefit to separating the water flow into two systems.

270 Mr. McCarthy asked Mr. Urbancic if he anticipates any such legal issues. Mr. Urbancic did 271 not necessarily see a legal issue. He asked if there is a way to separate the responsibilities 272 assigned on the stormwater management permit and, if so, what is the best way to do so.

273 Mr. Barraco stated there was some confusion because the CDD is responsible for the 274 overall O&M of the mechanical system, conveyance and the lakes. In the same situation, the land 275 on site is the responsibility of the condominium association or any other legal entity but not the 276 CDD, which is very common with many commercial parcels closer to US41. In this case, it is 277 proposed that the condominium association own, operate and maintain facilities on site and 278 discharge into CDD facilities, which are the backbone. A portion of the backbone is on this 279 property and will remain and there is currently no easement. He might suggest an easement be 280 granted and asked if the CDD will accept.

281 Mr. McCarthy stated it is the policy of the CDD to accept maintenance easements.

282 Mr. Urbancic asked, when construction is done and the permit is ready to be transferred 283 from construction to authorization, who is responsible.

284 Mr. Barraco stated this situation is different than permitting in the past because the 285 SFWMD recently changed the procedures; a new application, permit and permit number would 286 be issued associated with just this project, not the entire system. The CDD will continue to be 287 responsible for O&M outside of the permit.

Mr. McCarthy asked Mr. Barraco for his thoughts about a transitional plan for the conveyance of surface water during project construction. Mr. Barraco stated it is the Developer's responsibility to maintain the drainage throughout construction; the permit requires the contract to state that they will be responsible for maintaining all drainage through construction. One of two things would happen; in Phase 1, the entire ledge would be installed, or, if it is phased, the poured pipe could be installed in Phase 1 and the remainder in Phase 2. He does not know how the project was set up.

295 Mr. McCarthy asked Mr. Barraco to address the question regarding impervious versus 296 pervious land. Mr. Barraco stated he thought Mr. Tilton was clear when he stated that the 297 numbers have not changed; the original permit had a higher assumption for the impervious area 298 on this site and, in fact, it is lower than the original assumption. As Mr. Tilton stated in one 299 instance, the lakes are considered impervious and, in others, they are considered pervious except 200 that they are considered impervious for purposes of water quality.

301 Mr. McCarthy asked if this was reviewed by Mr. Barraco's firm and approved by the 302 SFWMD. Mr. Barraco stated it was designed by his firm, quality reviewed by an independent 303 group in his firm and reviewed by the City and SFWMD. The Environmental Engineer is 304 completing his review and Real Property had one final question regarding the confusion about 305 maintenance in the systems and he believed that was just clarified. The condominium association 306 would be responsible for maintenance of the system off site and the CDD would be responsible 307 for maintenance of the system on site. The reason is that the site depends on that site as well as 308 any other in the CDD.

309 Mr. McCarthy asked Mr. Adams about the comment that the Lake 15 control structure is 310 not monitored. Mr. Adams stated it was not included in the testing as it is not considered one of 311 the major outfalls based on volume. Mr. McCarthy asked if O&M of it is monitored. Mr. Adams 312 replied affirmatively.

Mr. Nicholson asked about the backbone system and other sites that feed into the backbone. Mr. Barraco stated a segment of the conveyance is an open ditch that is part of the master system that the CDD does not control because it does not have an easement, which has never been an issue and is the way it has been done since before his firm was involved. This would finalize that the CDD should have the right to an easement. If the CDD is primary, it would have initial responsibility to fund and maintain but, if secondary, the CDD could act if the primary fails to fulfill its responsibility. Mr. Adams stated the CDD's preference is to be the primary.

Mr. Cox stated, when the plats were recorded, Lee County required the CDD to pass and record resolutions stating the CDD is responsible for the backbone drainage. If this is to be part of the backbone, the CDD is responsible for it as the CDD accepted responsibility years ago.

323 Mr. Tilton stated if the CDD wants primary responsibility, an easement over those 324 facilities would be preferable. Mr. Barraco stated he does not have the authority but that would 325 be his recommendation to his client and he expects they would honor it.

Mr. Barraco stated he takes his profession very seriously and, more than once, the idea of a conflict of interest was discussed. He addressed it at the last meeting and wished Mr. Tilton was still present because he would have asked him if his firm had acted as Engineer of Record and District Engineer at any time in the past, as his guess is that he would have said yes. He expected that the District Manager and District Counsel would confirm that it is very common for the Engineer of Record to serve as District Engineer. He noted that his profession is governed by a standard of care in the industry and it should be accepted that there is no conflict of interest.

333 Mr. McCarthy stated the CDD has work to do with respect to securing the easement. He334 asked Mr. Barraco about a transition plan.

335 Mr. Nicholson expressed concern about the 10-year flood on the roadway and how it 336 matches the rest of the community design. He supports an additional study to determine if the 337 proposed design is in keeping with the rest of The Colony.

Discussion ensued regarding whether to undertake an additional study. Mr. McCarthy noted that the design must meet minimum standards and questioned the purpose of the study, given that nothing can be done with the information.

341 Mr. Urbancic noted the CDD is not a permitting authority. The CDD is accepting facilities342 but the permitting authority will be responsible for enforcement if there is an issue.

343 Mr. Barraco stated his office confirmed that the intention for the project is for the pipe 344 to be completed in Phase 1. The contract will maintain drainage until the pipe is complete and 345 then drainage will switch over. Regarding the easement, his client stated the intention is to 346 dedicate the easement to the CDD for primary responsibility.

Ms. Gravenhorst asked Mr. Barraco if riprap would be added, as suggested by Johnson Engineering. Mr. Barraco stated that change and another graphical change discussed by Mr. Tilton, which would have been covered by technical specification, were made to the plans.

350 Mr. Urbancic asked when is the appropriate time to negotiate the easement. Mr. Barraco 351 recommended waiting until the start date for construction is known.

352

353SIXTH ORDER OF BUSINESSDiscussion: RelationshipBetweenthe354BaysideImprovementCDDandBarraco355Engineering356

357 Mr. Barraco stated, during construction, his firm will be on site monitoring contractors on 358 behalf of Ronto. They do not typically perform observations on the CDD's behalf during 359 construction. Mr. Adams stated part of the turnover and acceptance process requires viewing 360 the pipe and the CDD has a contractor that performs the inspections via video. Mr. Barraco noted 361 the Engineer of Record will provide certifications to the City and to SFWMD.

Mr. Nicholson recalled being reminded at the last meeting that, in January, they were advised of Barraco's dual purpose Barraco serving for Ronto and the CDD. Mr. Nicholson and Mr. McCarthy regretted not recognizing the implications at the time.

365Discussion ensued regarding Barraco's comments to SFWMD and at the January meeting.366Mr. Nicholson stated Barraco's staff needs to make the CDD aware of communications in

367 which the CDD is referenced.

368 Communication processes were discussed.

369

370SEVENTH ORDER OF BUSINESSWaterway Inspection Report: February3712023 - SOLitude Lake Management, LLC

- 372
- **Update: Lake Foaming During Winter Months**

374 Mr. Sims presented the Monthly Report. The lakes were treated on February 16, 2023 375 and no lake foaming was noticed at that time. Some sulphur odors were noted and illicit 376 discharge was ruled out and it was concluded; the odor was likely due to mangroves. Algae was 377 treated and bacteria added; it might take six weeks for the odor to subside.

Mr. Travers expressed surprise that A-16 was not included in the Report as, in his opinion, it is becoming an issue. He stated The Nest Club's President plans to send a communication to members. He understands the mangrove seed is causing the sulphur odor, algae and lake color.

Regarding what is being done to speed recovery, Mr. Sims stated algae was treated and bacteria added to help with breakdown. Mrs. Adams will obtain a quote for pond aeration. Mr. Adams stated, while it will help in the future, it will likely not help with the current event. Asked if it will be alleviated within six weeks, Mr. Sims replied affirmatively. Mr. Adams stated lake foaming can occur naturally; it is not always due to illicit discharge.

386 Mr. Travers asked why A-16 is the only one affected. Mr. Adams stated, while he was not 387 certain, the lake is adjacent to the mangroves, it flooded recently and Spring Creek was likely 388 inundated, as were lakes.

389				
390 391	EIGHT	H ORDER OF BUSINESS	Committee Reports	
392	Α.	PLCA Landscape Committee		
393	Ms. Hughes distributed and presented the Report.			
394	A Board Member noted a traffic circle at the bottom of Greenview Drive; the CDD owns			
395	the ridge past that. A lot of hurricane damage was sustained in that areas, at house number 3406			
396	and a large area where a tree was removed.			
397	Discussion ensued regarding land in the vicinity to be enhanced.			
398	Mr. Cramer applauded Ms. Hughes and her team's efforts. He stated the berm near the			
399	north entrance on Pennyroyal needs attention.			
400	B. Colony Landscape Committee			
401		The Report was included for informational p	ourposes.	
402	Mr. Nicholson asked Mrs. Adams for an update on the streetlights ordered by Bentley.			
403	Mrs. Adams stated there was no update.			
404	Mr. Travers stated the streetlight on Pelican West Drive is on 24-hours per day; some			
405	lights are orange and some are white. The consensus was there is a mix of old and new lights.			
406				
407	JOINT BOARD ITEMS			
408 409 410 411	NINTH	ORDER OF BUSINESS	Presentation of Monthly Budget and Year End Projection (to be provided under separate cover)	
412		Mr. Adams presented the Monthly Budget a	nd Year End Projection Report. Minor pending	
413	adjustments will bring the General Fund positive.			
414				
415 416 417	TENTH	I ORDER OF BUSINESS	Acceptance of Unaudited Financial Statements as of January 31, 2023	
			cial Statements as of January 31, 2023.	
419		The financials were accepted.		
420 421 422	ELEVE	NTH ORDER OF BUSINESS	Approval of January 23, 2023 Joint Regular Meeting Minutes	
423		Mr. McCarthy presented the January 23, 20	23 Joint Regular Meeting Minutes.	

424 On MOTION for Bayside by Mr. Cramer and seconded by Ms. Montgomery, with 425 426 all in favor, the January 23, 2023 Joint Regular Meeting Minutes, as amended to 427 include any changes submitted to Management, were approved. 428 429 On MOTION for Bay Creek by Mr. Addison and seconded by Mr. Janek with all in 430 favor, the January 23, 2023 Joint Regular Meeting Minutes, as amended to 431 include any changes submitted to Management, were approved. 432 433 434 **TWELFTH ORDER OF BUSINESS** Action/Agenda Items 435 436 The Action Items were updated following the meeting. 437 438 THIRTEENTH ORDER OF BUSINESS **Old Business** 439 440 There was no old business. 441 442 FOURTEENTH ORDER OF BUSINESS **Staff Reports** 443 444 District Counsel Α. 445 ١. Gregory Urbancic, Esq., Coleman Yovanovich Koester, P.A. Update: Second Amendment and Restated Bylaws of Pelican Landing 446 • 447 **Community Association, Inc.** Mr. Urbancic stated that PLCA Counsel is aware of the CDDs' request to remove certain 448 449 language in the Bylaws, It and other comments will be reviewed at the PLCA's February meeting. 450 He will remind PLCA Counsel of the request to remove Section 7.4Bii and references to the CDDs. 451 П. Daniel Cox, Esq. 452 There was no report. 453 District Manager: Wrathell, Hunt and Associates, LLC Β. 454 Ι. **Monthly Status Report: Field Operations** 455 The Monthly Report was included for informational purposes. 456 Mr. Adams presented an encroachment request and recommended approval. 457

458 459 460	On MOTION for Bayside by Ms. Montgomery and seconded by Ms. Gravenhorst, with all in favor, granting a continued easement encroachment at 25121 Bay Cedar Drive, was approved.				
461					
462 463	II. NEXT MEETING: March 27, 2023 at 2:00 P.M.				
464	• QUORUM CHECK: BAYSIDE IMPROVEMENT CDD				
465	All Supervisors confirmed their attendance at the March 27, 2023 meeting.				
466	• QUORUM CHECK: BAY CREEK CDD				
467	Supervisors Travers and Janek confirmed their attendance at the March 27, 2023 meeting.				
468	Supervisor Addison will attend via telephone.				
469					
470	FIFTEENTH ORDER OF BUSINESS Supervisors' Requests				
471 472	Mr. McCarthy thanked Mr. Kemp for immediately responding to the eruption of a				
473	watermain on Pelican Colony Boulevard on Saturday. Mr. Adams stated Mr. Kemp will take over				
474	as Field Manager beginning Wednesday March 1, 2023; tomorrow is Mr. Kucera's last day.				
475	Mr. Cramer expressed concern about the Golf Course's proposal to prevent access to				
476	nonresidents using the toilet facilities by the kayak park.				
477					
478 479	SIXTEENTH ORDER OF BUSINESS Public Comments: Non-Agenda Items				
480	Regarding the Bylaws redraft, Mr. Packard stated the next PLCA meeting is March 8, 2023.				
481	At the last meeting, painting the monuments along US41 was discussed. The Colony Golf Club				
482	asked to work on a monument; the issue was raised. Mr. McCarthy noted the monuments are				
483	approved signs that require Village approval. Mr. Packard stated it will be addressed accordingly.				
484					
485 486 487	SEVENTEENTH ORDER OF BUSINESS Adjournment				
488 489	On MOTION for Bay Creek by Mr. Janek and seconded by Mr. Travers, with all in favor, the meeting adjourned at 4:27 p.m.				
490 491 492	On MOTION for Bayside by Mr. McCarthy and seconded by Mr. Cramer, with all in favor, the meeting adjourned at 4:27 p.m.

BAYSIDE IMPROVEMENT AND BAY CREEK COMMUNITY DEVELOPMENT DISTRICTS

ACTION/AGENDA ITEMS

ACTIVE / ONGOING – NEW at 02.27.23 MEETING

- 1. Mrs. Adams: Have street light bulbs on Pelican West Drive that is on 24 hours serviced; have orange bulbs replaced with white. **ONGOING**
- 2. Mrs. Adams: Follow up on streetlights ordered by Bentley. **ONGOING**

ACTIVE / ONGOING – CARRY OVER FROM 01.23.23 MEETING

1. Mr. Adams: Email the Monthly Budget and Year End Projection Report by the end of the week to the Boards. **ONGOING**

2. Mr. Cox: Research his records to locate the spreadsheet of "who owns what" outside the Colony. **ONGOING**

3.

ACTIVE / ONGOING - CARRIED OVER OLDER THAN 01.23.23

1. Mrs. Adams: Have SOLitude repair aeration box on Pelican Nest Drive near Pine Water Drive and ask when all systems will be reviewed to ensure they are working properly. **01.23.23** Mrs. Adams to check on status. **ONGOING**

2. Ms. Gravenhorst to include the horticulturist's formal assessment report when presenting the Colony Landscape Committee's written report at the next meeting. **ONGOING**

3. Mr. Urbancic: Ask City for acknowledgement letter that it does not oppose vacation and replacement of drainage easement and that there is no necessity for a replat. **ONGOING**

4. Mr. Adams: Reformat FY 2023 & 2024 budgets per Motions #1-#9 approved by Boards. Motions list distributed by Mr. Nicholson will be attached to the meeting minutes. **ONGOING**

5. Mr. Adams/Staff: Send meeting items at least 72 hours before meetings. ONGOING

6. Boards: Notify Mr. Adams if attending non-CDD meetings. ONGOING

7. Bentley: Inspect Pelican Nest/Pinewater utility poles for missing covers. ONGOING

8. Mr. Adams: Schedule a visit with Mr. Zimmerman to see a demonstration of the new straight trimmer and give suggestions for improvement to the BMPs if any. **ONGOING**

9. Staff: Revise Interlocal Agreement with the Village of Estero and negotiate accepting maintenance of a section of CDD-owned road, located outside the gate. **ONGOING**

COMPLETED ITEMS – RECENT TO OLDEST

1. Mr. McCarthy: Work w/ Mr. Adams on selecting & engaging independent Engineering firm to provide peer review of Baracco's involvement in the design for the Infinity Project. Mr. Adams to email project related documents to the Board. **COMPLETED after 02.27.23 mtg**

2. Mr. Denison: Add footnotes to 2022 Water Quality Testing Monitoring Report and send updated Report to Mr. Adams to distribute to the Board. **COMPLETED after 02.27.23 mtg**

3. Staff: Research & report reason for Lake A-29 foam. COMPLETED after 02.27.23 mtg

4. Mr. Adams: Email PLCA Landscape Committee all info about the original installation of the fountains added at the central entrance and the PIC Project. **COMPLETED after 02.27.23 mtg**

5. CDD Board Members: Reflect on what transpired about the conflict of interest, and if they feel some action is needed & discuss at next meeting. **COMPLETED after 02.27.23 mtg**

6. Mr. Adams: Identify PLCA sidewalk and subsidence of stormwater sewer structures by location, have MRI inspect those that are CDD responsibility and notify Mr. Puthoff of any that are the PLCA's responsibility. **COMPLETED after 02.27.23 mtg**

7. Mr. Adams: Review property insurance coverage to determine if it covers electrical system damage to the PLCA's lighting system. **COMPLETED after 02.27.23 mtg**

8. Mr. Urbancic: Convey CDD Boards' position & request remove language about the CDDs in Section 7.4Bii from the PLCA's bylaws to PLCA Counsel. **01.23.23** Mr. Urbancic to reaffirm the CDDs' position. **COMPLETED after 02.27.23 mtg**

9. Mr. Adams: Review Agreement with PLCA to determine who is responsible for fishing "roll" dock repairs. **COMPLETED after 02.27.23 mtg**

10. Mr. Adams: Plan event for Mr. Kucera's retirement. **COMPLETED after 02.27.23 mtg**

11. Mr. Adams: Have flowway canal close to Terzetto monitored for debris cleanup and obtain proposals from SOLitude and EarthBalance. **COMPLETED after 02.27.23 mtg**

12. Mr. Adams: Ask SOLitude Techs to monitor lakes for Grass Carp. COMPLETED after 02.27.23 mtg

13. Mr. Adams: Request PLCA's landscape plans. Email to Mr. Cramer & Boards. **COMPLETED** after 02.27.23 mtg

COMPLETED ITEMS – RECENT TO OLDEST

14. Mr. Adams: Reinstitute Water Quality Testing of seven outfall ponds & include fecal bacteria testing & conduct sediment testing every 3 years. **COMPLETED after 02.27.23 mtg**

15. Mr. Adams: Check with Mr. Kemp on status of tree trimming at center entrance to help increase lighting visibility & email an update to the Boards. **COMPLETED after 02.27.23 mtg**

16. Mr. Adams/Mr. Kayne/Mr. Cox: Work on Water Quality Improvement Plan. **COMPLETED after 02.27.23 mtg**

17. Mrs. Adams: Ask Mr. Kucera to have alarm system at central fountain repaired. **COMPLETED after 02.27.23 mtg**

18. SOLitude: Address Lake #-5 nano-bubbler mechanical issues. COMPLETED after 02.27.23mtg

19. Mr. Adams: Confirm if Bayside "Irrigation Revenue" amt in Projected Report was correct & prep Budget Amendment, once invoices for new pumps are processed. COMPLETED after 02.27.23 mtg

20. Mr. Adams: Prep info about Irrigation Rate Increase for HOA newsletter. **COMPLETED after 02.27.23 mtg**

21. Ms. Gravenhorst: Present Colony Landscape Committee's report at next meeting. **COMPLETED 01.23.23**

22. Mr. Adams: Research docs with PLCA about assisting in FEMA reimbursement. **COMPLETED after 01.23.23 mtg**

23. Mr. Zimmerman: Provide documentation to prep Easement Agreement to Pelican Nest Golf Course and Ms. De Lestan's contact information to Mr. Adams to email to Boards. **COMPLETED after 01.23.23 mtg**

24. Mr. Adams: Email project updates from PLCA to BOS. COMPLETED after 01.23.23 mtg

25. Mr. Adams: Create unfunded budget account and new "Hurricane Ian Recovery" budget line item for Fiscal Year 2023. **COMPLETED 01.23.23**

26. Mr. Adams: Email details about \$3,392 charged to the "Pumps & machinery" line item to the Boards. **COMPLETED 01.23.23**

COMPLETED ITEMS – RECENT TO OLDEST

27. Mrs. Adams: Advise Accounting to pay Mr. Addison for Oct mtg. COMPLETED 01.23.23

28. Ms. McVay: Submit her \$350 irrigation bill for reimbursement. COMPLETED 01.23.23

29. Mr. Adams: Have Accounting recode certain "Fuel" costs from the General Fund 002 to the General Fund 001. **COMPLETED 01.23.23**

30. Mrs. Adams: Present report on fountains needing repair at the next meeting. Mr. Adams to file insurance claims for that and the decorative lights in the Colony. **COMPLETED 12.05.22**

31. Mr. Adams: Present request for Pelican Nest Golf Club to realign drainage pipe & abandon a portion of an easement and accept a new one, at the December meeting. **COMPLETED 12.05.22**

32. Mr. Adams: Provide itemized list of unplanned and unbudgeted storm emergency cleanup projects with prices at the December meeting. **COMPLETED 12.05.22**

33. Mr. Adams: Forward PLCA email about rewriting documents to request CDD start fund capital expenditure projects to Mr. Urbancic and Mr. Cox to review and report their findings at the next meeting. **COMPLETED 12.05.22**

34. Mr. Adams: Have Mr. Putcoff review PLCA Agreement to determine if service includes clearing the streets in Bay Creek. **COMPLETED 12.05.22**

35. PLCA: Continue to monitor height of newly planted dwarf bougainvillea at main entrance and various areas and to address line of sight concerns. **COMPLETED after 10.24.22 mtg**

36. Mr. Kayne: Inspect new irrigation piping, "emergency valve", installed at Lake D-16, "Hurricane #13" and confirm if permits were issued. **COMPLETED 10.24.22**

37. Mrs. Adams: Research and adjust incorrect coding to The Colony Flower budget line item causing it to exceed budget. **COMPLETED 10.24.22**

38. Mr. Adams: Coordinate purchase of new street sweeper. **COMPLETED 10.24.22**

39. Mr. Adams: Request general ledger from Accounting & email to Mr. Durney. **COMPLETED 10.24.22**

40. Mr. Adams: Email CDDs' independent contractors to Board. **COMPLETED 10.24.22**

	Colony Operations 202302.pdf
	Landing Production 202302.pdf
	Zeros20230208SIDE.pdf

Landscape:

Almost six months after Hurricane Ian and we are still finding things to address. We straightened the seven Hong Kong Orchids in the Sanctuary medians, pulled debris from some lakes and Spring Creek, cleaned up the tortoise preserve behind The Cottages, removed some dead plants from The Coventry, Waterside, and Greenview Drive. Still mowing every other week until April. We fertilized the turf, the palm trees, and the bushes. The Arbicolas at the top of the Pennyroyal berm got a trim and we filled in some thin spots with 25 new plants. Our detail crew trimmed every bougainvillea bush. Pelican Colony Blvd got a trim on both sides from the gate to the animal crossing. We trimmed the bushes surrounding the lake at the South Gate. In The Colony we spent a lot of time trimming palms. We hand-trimmed the north gate circle every Friday. We removed some more dead material down by the Bay Club.

Irrigation:

No rain measured this month. Lake levels continue to recede.

Phase Two Pumps Schedule:

Off - Sunday 10am until Tuesday at 7am

Activities of the Irrigation Department:

1. Sustainability - Our chief objective is to provide a sustainable irrigation water source while managing the watershed between the cycles of the wet and dry seasons, to support a thriving native landscape throughout Pelican Landing and The Colony.

2. Water Management - Sluice gates remained closed.

3. Pumping Stations – We are investigating options of how to best revive the Bay Creek pump station.

4. Meter Maintenance – We are targeting zero consumption meters for replacement.

5. Alterations – The Bay Club parking lot needed new sleeves installed under the roadway as they're running new power lines for the street lights

6. Water Quality – Both pump stations' filtration systems fully operational and optimized.
7. Wet Checks – Our team systematically turns on and audits every sprinkler zone in the

district, making necessary adjustments and repairs.

8. Reporting - Manage, monitor, and report all incoming and outgoing irrigation water usage, along with sluice gate activities in accordance with our permits issued by South Florida Water Management District.

PLCA	Paul Kemp	02/March/2023 11:57:11 AM	A shed has been installed. Now we would like to have the area covered by Podocarpus bushes. Please visit and make a count so we can get a price for plants.@Miguel Solis
3680 Heron Point Court	Paul Kemp	06/March/2023 01:05:29 PM	Fallen tree near the preserve.

3680 Heron Point Court	Paul Kemp	06/March/2023 02:43:16 PM	I am writing about a fallen tree on my property at 3680 Heron Point Court A tree has fallen at the edge of the lake and is within the 20' lake maintenance easement as designated on my plat. Lot12,BlockA, Unit19. As it is within the maintenance area I assume it is the association responsibility to either stand the tree back up if possible or remove it. Please visit the property at your convenience to assess the issue. Thank you in advance for your assistance in this matter. Mark Whitten (owner) Markwhittenmd@gmail.com.
3480 Cedar Lake	Paul Kemp	07/March/2023 07:02:39 AM	We are trying to find out the demarcation line for the CDD's responsibility and for ours in regard to the Pennyroyal side of the lot at 3480 Cedar Lake Dr. Specifically, which palm trees are yours and which are ours on the west side of the lot
Heron Point monument	Paul Kemp	07/March/2023 09:44:29 AM	Check for weeds. @Miguel Solis
Tasselflower lights on 24-7	Paul Kemp	07/March/2023 12:59:01 PM	reportede to Bentley.
South Gate Medians	Paul Kemp	07/March/2023 02:12:37 PM	No lights working in the median outside the south gate.
South Gate Medians	Paul Kemp	07/March/2023 02:14:13 PM	Reported to Bentley
24611 Ivory Cane	Paul Kemp	07/March/2023 02:57:32 PM	Dead plants in buffer by resident's front door. @Miguel Solis
24611 Ivory Cane	Paul Kemp	10/March/2023 11:17:46 AM	Rolando can clean up the weak Arbicolas, Casco can fertilize. We will fill in with new plants in June.

Messina Xanadu	Paul Kemp	07/March/2023 03:08:34 PM	Xanadu has struggled and died off in many places. Maybe there is a good alternative?
Bend beyond Terzetto	Paul Kemp	07/March/2023 03:14:35 PM	Plant carrissa when the time comes
Wild Indigo	Paul Kemp	07/March/2023 03:31:24 PM	Street light at the north end of the circle is cycling.
Wild Indigo	Paul Kemp	07/March/2023 03:32:08 PM	Alerted Bentley
Pennyroyal at Pine Fern	Paul Kemp	07/March/2023 03:42:33 PM	Street light is cycling
Pennyroyal at Pine Fern	Paul Kemp	07/March/2023 03:43:18 PM	alerted Bentley
