## BAYSIDE IMPROVEMENT AND BAY CREEK COMMUNITY DEVELOPMENT DISTRICTS

#### Landscape Maintenance Agreement

THIS LANDSCAPE MAINTENANCE AGREEMENT (the "agreement") is entered into as of the\_ day of \_\_\_\_\_\_\_ 20\_20 by and between the BAYSIDE IMPROVEMENT AND BAYCREEK COMMUNITY DEVELOPMENT DISTRICTS, independent special districts established pursuant to Chapter 190, Florida Statutes (the "Districts"}, and the PELICAN LANDING COMMUNITY ASSOCIATION, INC., a Florida not-for-profit corporation (the "PLCA").

Recognizing past practice, history and the direction of the Amended and Restated Declaration and General Protective Covenants for Pelican Landing, the Pelican Landing Community Association and the Bayside and Bay Creek Community Development Districts desire to enter into an agreement to operate, manage and maintain the Landscaping for the road rights of way and entries, parks, common and recreational areas, as well as to operate, manage and maintain all associated systems including irrigation sprinkler systems, timer clocks, landscape lighting systems, and monuments/walls.

#### **Recitals:**

- A. The Districts have the authority to exercise powers to finance, fund, plan, establish, acquire, construct or reconstruct, enlarge or extend, equip, operate and maintain systems and facilities for storm water management, irrigation water supply, storm sewers, street lights, security, and parks and recreational facilities, among other powers, including all powers necessary, convenient, incidental or proper in connection with any of the powers, duties or purposes authorized by Chapter 190, Florida Statutes.
- B. The PLCA is an organization which owns and operates certain roads and road rights of way, common areas and recreational facilities located within the area comprised of real property subject to the jurisdiction of the Districts. The membership of the PLCA is comprised of owners of real property within the Districts that will realize recognized special benefit from the services being provided by the Districts under this agreement. The Districts are statutorily authorized, positioned and qualified to manage and maintain the Landscaping.
- C. For ease of administration, potential cost savings and benefits of full time on-site management, the PLCA desires to enter into this agreement with the Districts to operate, manage and maintain Landscaping for the road rights of way and entries, parks, common and recreational areas generally identified on Exhibit A, as well as to operate, manage and maintain the monuments and walls and all the associated Facilities.
- D. The Districts' agree to operate, manage and maintain the Landscaping and Facilities as outlined in paragraphs 1-21all on the terms and conditions set forth herein.

Now therefore, the PLCA and the Districts agree as follows:

- 1. The above recitals are true and correct and incorporated by reference herein.
- 2. Definitions: When used herein, the following words shall mean:
  - A. Landscaping shall mean the flora, mulch and associated materials purposefully placed to provide aesthetics, privacy and/or sound attenuation within and throughout the Pelican Landing Community and its entry ways.
  - B. Facilities shall mean irrigation systems, including piping, sprinkler heads, timer clocks and landscape lighting systems.
- The PLCA and the Districts' expressly agree that having the Districts operate, manage and maintain the Landscape and Facilities, in a professional, quality manner is in the best interests of the property subject to the jurisdiction of the PLCA and the Districts.
- 4. The Districts shall operate, manage and maintain the Landscape/Landscaping and Facilities in compliance with all applicable statutes, ordinances, administrative rules and regulations. The Districts shall also remove noxious weeds as identified on the Florida Noxious Weeds List found at Rule 5B-57.007, Florida Administrative Code.
- To ensure that maintenance meets acceptable standards a joint physical tour of the PLCA common property with the PLCA Management team and CDD management shall occur at least quarterly or more frequently at the request of the liaison for either party.
- 6. The PCLA shall have the right to select all annual flowers for all planting schedules. To the extent practicable, the plant quality/level selections will be determined by May of each year to facilitate the Districts' budget schedule. In the event that PLCA changes the selection, quality, amount, variety spacing, or any other factor regarding seasonal plantings, PLCA shall pay the difference between actual cost and budgeted cost. The Districts will accept the responsibility to maintain and replace all non-performing annual flowers in all flower beds after the installer's warranty period.
- The Districts, in accordance with their responsibilities, shall adopt annual operating budgets in amounts sufficient to fund their obligations.
- PLCA shall have the right to change the landscape characteristics. Any changes to design criteria for new landscaping projects shall be submitted in writing and the following provisions shall apply:
  - A. PLCA is responsible for paying for the cost of new Landscape designs which change the characteristics of the existing landscape.
  - B. PLCA will pay for the cost of or changes to the Landscaping required by the design changes.
  - C. PLCA will be responsible for obtaining and paying for all permits necessary for the implementation of any revised Landscaping plan.
  - D. PLCA will pay for the cost of the installation of the new plants.
  - E. PLCA shall pay for the cost of the new plants. However, if plant replacement would have been necessary in any event, then PLCA shall only be responsible for paying any incremental increase in cost for the new plants chosen. (For example, if PLCA chooses a more expensive plant than would be necessary under the former plan, PLCA would pay the difference in cost.)

- F. The CDDs will pay for any costs associated with required irrigation.
- G. After installation, as a part of the transition process from installation to maintenance, the PLCA Management and Community District Management will conduct a walk-through inspection of the Landscaping and the CDD will provide a written Transmittal Conditions and Acceptance Report to the PLCA. Any noted deficiencies will be remedied by the PLCA. The CDD will provide management and maintenance from that point forward and will provide all of the usual services provided in connection with maintenance, and replacement, asoutlined herein.
- H. As part of the transition, PLCA shall provide written information as to the proper maintenance, but providing any such information shall not release, modify, diminish, cancel, excuse, waive or effect in any manner the Districts' obligations under this agreement. The written instructions shall include best management practices certified by the Landscape Architect or Horticulturist supervising the installation of the new plantings. In any dispute over the proper maintenance of the Landscaping a determination by the Landscape Architect or Horticulturist, as appropriate will be dispositive.
- 9. The Districts' will be responsible for the replacement of all damaged, dead and/or dying/deteriorating Landscaping except as outlined below. If plants are destroyed by natural disaster or damaged to the point they cannot be rejuvenated and CDD has insufficient funds, a meeting between PLCA and CDD will be held to determine how to proceed.

Plant material loss or deterioration that will result in replacement that will be the financial responsibility of the PLCA include:

- Landscape damage caused by war, riot, crime, or strike (other than striking CDD employees), as well as any event considered an "act of God," such as an earthquake, hurricane, tornado, flooding, or volcanic eruption
- b. Like kind replacements that no longer work aesthetically
- c. Necessitation of new plant types due to changes in surroundings (canopy growth)
- d. Aggressive disease/pest attacks that are not easily controlled
- e. Plant materials that have exceeded useful life expectancy as determined by a mutually agreed upon third party licensed Horticulturalist
- f. Requested replacement costs more than like kind replacement (in these cases, PLCA is responsible for costs differential)
- 10. PLCA shall pay Districts the sum of \$10.00 per year for the performance of the operation management and maintenance responsibilities set forth in this Agreement.
- 11. Terms and Conditions: The term of this Agreement is for a period of 12 months commencing on June1, 2020, and shall be automatically renewed for additional one-year periods after June 1, 2021 unless either party provides the other party at least 90 days written notice prior to January 1st of any given year with the effective date of termination to be March 31st.
- 12. The Districts shall be solely responsible for staffing, budgeting, financing, billing and collection of revenues, necessary to perform the operation and maintenance responsibilities set forth in this Agreement.
- 13. The Districts shall procure at their expense and at all times include the PLCA as an additional named insured on comprehensive liability insurance policies to cover the operation and maintenance responsibilities set forth in this Agreement. Comprehensive liability insurance shall be in amounts determined by the PLCA. It is understood and agreed by the parties that the Districts will continue to reserve and retain their full sovereign immunity rights and protections, as provided for under Florida Law and nothing contained in this

section/agreement shall be construed or interpreted as a waiver of these rights and protections.

- 14. This Agreement may only be amended in writing executed by both parties.
- 15. This Agreement may not be assigned by the Districts without the prior written specific consent of the PLCA, which consent may be withheld in the PLCA's sole and absolute discretion.
- 16. This Agreement is made and shall be governed and construed by the laws of the State of Florida. Any litigation arising out of this Agreement shall be in the court of appropriate jurisdiction in Lee County, Florida.
- 17. This Agreement was approved by the Board of Directors of PLCA on June 10, 2020 20\_\_\_ and the Board of Supervisors of the Districts on May 18, 2020 and shall be effective as of said date.
- This Agreement supersedes all prior agreements between the parties for maintenance of the Landscaping and Facilities whether written, oral or otherwise.
- 19. In the event that either party fails to perform one or more of its/their respective obligations under this agreement, the other party shall give written notice of such one or more failures to perform. Such notice shall contain the specifics of such failure (s) to perform and the remedy(ies) to cure such failure(s). The party in default shall then have thirty (30) days to cure such one or more failures to perform, unless a failure to perform cannot be reasonably cured within such thirty (30) day period in which case they shall have an additional reasonable time to cure, but in no event shall such period to cure be extended for more than ninety (90) additional days. During any such cure period PLCA and the Districts agree that if either request in writing a meeting, the other shall meet, in a timely manner ,with representatives of the requesting party to discuss the failure(s) set forth in the notice. If at the end of the cure period the party in default has not remedied the noticed failure (s) to perform to the satisfaction of the other party, the other party shall have the right to thereafter cancel the agreement by notifying the party in default in writing of such cancellation.
- 20. All notices must be in writing and delivered either by hand or certified mail with return receipt requested. If notice is to the Districts then it should be addressed to the Districts' manager and with at least a copy to the "chairperson" of the relevant District.
- Notices to PLCA should be given to the PLCA General Manager with a copy to the board president.

IN WITNESS WHEREOF, the parties hereto have executed this Community Landscape Maintenance Agreement on the day and year first above written.

#### **Management Summary**

- Solitude received a defective work notice on 10/2. Immediate action was taken to correct any non-compliance. We will continue to monitor the conditions of the lakes and treat as needed.

- We continue to add beneficial bacteria to the four outfall lakes A-2, A-17, D-8, F-12. We also add bacteria to F-1, F-6, F-16, B-5, E-4 and E-5 to help reduce nutrients that cause algae blooms.

- The majority of the lakes that require attention need treatment for shoreline weeds. Buffers need to be edged back as water levels continue to rise.

Additional Observations:

The following lakes were treated on 10/4 as a result of the non-compliance letter: - A8 A12 C2 F14 F15: treated for shoreline weeds - B7: treated for surface algae and chara

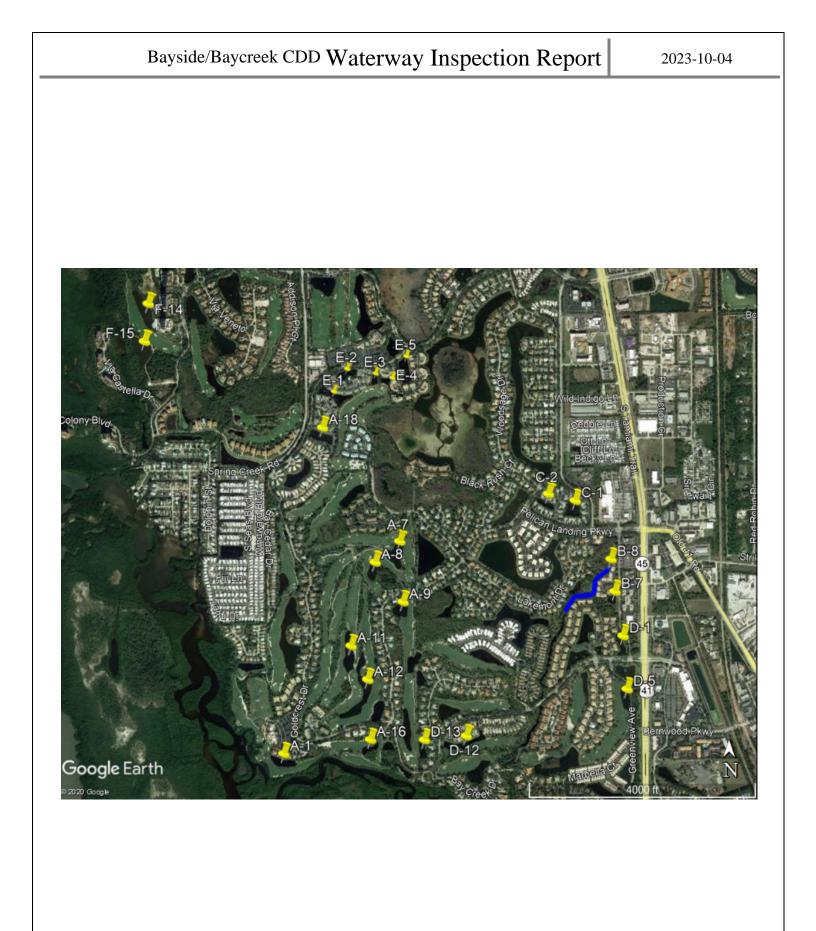

The following are scheduled for 10/17: A1 A11 A18 B8 D1 D5 D13 E1 E2 E3 E4

## BAYSIDE IMPROVEMENT AND BAY CREEK COMMUNITY DEVELOPMENT DISTRICTS

#### Colony to CDD 10/16/23

The Colony Foundation Board met October 16, 2023.

It was noted that caution signs have been delivered and will be installed along the roadways to provide both residents and vendors reminders to slow and watch for pedestrian traffic.

The Bay Club sign is awaiting permitting. Property ownership needs to be affirmed to Bonita Springs. Although it will be smaller and relocated it still remains on Foundation owned property.

It was also announced that replanting has been delayed until better water levels are available due to this summer's long hot drought. It was noted that the CDD continues to aid the Foundation in improving the aesthetics after the hurricane took its toll.

Most of the meeting concerned the budgeting aspects for the 2024 Colony finances.

Progress in the Bay Club refurbishment also demanded attention.

62			
63	JOINT BUSINESS ITEMS		
64 65 66 67	FOURTH ORDER OF BUSINESS	Consideration of Award of Contract for CDD Maintenance and Operations Facility Space Optimization Study	
68	Mr. Adams stated that the three or four	Architecture firms contacted consider this a	
69	"unique scope" and are unable to respond to the	Request for Proposals (RFP) at this time. The	
70	Boards agreed with the suggestion to defer this and	d keep it on the Action Items List until quotes	
71	can be obtained in early 2024.		
72			
73 74	FIFTH ORDER OF BUSINESS	Discussion: Irrigation Water Usage	
75	Mr. Kemp stated that water availability is	expected to become dire through the winter	
76	due to the drier than normal "rainy season" and, re	lated to the pump schedule, he expects to cut	
77	the water off for a third day in order to recharge th	e well water.	

BAYSIDE IMPROVEMENT/BAY CREEK CDDS

78	Discussion ensued regarding monitoring	, water levels in the v	vells, similar drought
79	conditions in past years, resident usage based on honor system, how the system operates, the		
80	depressurizing process, dispersing information and increasing the excess usage fee.		
81	Mr. Puthoff stated he will ask to send the	pump schedule again to	residents and all HOA
82	Presidents weekly to remind everyone that this is	still an issue.	
83	Regarding developing a contingency plan	if the wells run dry or	the ability to tie the
84	irrigation systems between the two CDDs, Mr. A	Adams will speak with R	esource Conservation
85	Systems (RCS) about the possibility of receiving wa	ater and not having to lin	e the ponds. He noted
86	that residents can tie into the City's water system	but that option is not av	vailable to the CDDs.
87			
88 89 90	SIXTH ORDER OF BUSINESS	Discussion: Landscap Main Gate	ing Maintenance at
91	PLCA Landscape Committee Members Mr.	Durney and Ms. Graven	orst advised that they
92	are developing a plan to improve landscaping at all entrance monuments so the CDDs can allocate		
93	sufficient resources to maintain them on a regular basis. Mr. Kemp stated that landscape		
94	maintenance deficiencies are due to working und	er a constant staffing de	ficit.

109 110 111	SEVENTH ORDER OF BUSINESS	Discussion/Update: Investment Options	Operating Funds

BAYSIDE IMPROVEMENT/BAY CREEK CDDS

112	Mr. Adams reviewed the three options to invest the CDDs' surplus funds. He
113	recommended BankUnited's ICS money market, which is FDIC insured up to \$150 million. The
114	current rate is 4.75%, which reflects another increase since the letter was prepared.
115	
116 117 118 119	On MOTION for Bayside by Mr. Cramer and seconded by Mr. Nicholson, with all in favor, authorizing Staff to invest surplus CDD funds with BankUnited, in an ISC Deposit Program, was approved.
120 121 122 123	On MOTION for Bay Creek by Mr. Addison and seconded by Mr. Travers, with all in favor, authorizing staff to invest surplus CDD funds with BankUnited, in an ISC Deposit Program, was approved.
124	
125 126 127	JOINT BOARD ITEMS EIGHTH ORDER OF BUSINESS Staff Report: District Engineer – Barraco & Associates, Inc.
128 129	Mr. Savage distributed the draft National Pollutant Discharge Elimination System (NPDES)
130	Municipal Separate Storm Sewer Systems Annual Report for Cycle 4, Year 6, 2023 and reported
131	the following:
132	> A teleconference with the Florida Department of Environmental Protection (FDEP) was
133	held on September 13, 2023. FDEP is working on issuing a Cycle 5, Year 7 permit but, if it is not
134	ready before the next cycle, the CDD should continue preparing the Cycle 4 permit for Year 7.
135	A meeting with the Co-Permittees was held on September 21, 2023; the CDDs were the
136	only Co-Permittees to complete the Annual Report.
137	> The Report is unique from prior ones due to the October 2022 storm event. Statistical
138	modeling was incorporated into the analysis.
139	Asked if there are any concern, Mr. Savage replied no, other than an increase in nutrient
140	levels post-Hurricane Ian. The Reports will be compiled in conjunction with the other Co-
141	Permittees throughout Lee County and submitted to the FDEP for sufficiency.
142	
143 144 145 146	On MOTION for Bayside by Ms. Gravenhorst and seconded by Mr. Cramer, with all in favor, the National Pollutant Discharge Elimination System (NPDES) Municipal Separate Storm Sewer Systems Annual Report for Cycle 4, Year 6, 2023, and authorizing the Chair to execute the final version, was approved.

### Landscape:

The annual pine straw and mulch application has been completed. Golden Golf performed better this year than last. We have completed the annual sterilization of the flower beds. This is a project which I will research whether it is more sensible to outsource in the future. Club Care will be tilling the beds, topping off the soil, and installing flowers the week of October 30th. We trimmed the buffer between The Pointe and Bay Creek. We have organized the crew into smaller teams in order to more efficiently cover the entirety of the property. So far this has been very effective. We complete the mowing in two days instead of almost three days. This will allow us to have more hours trimming while allowing us to be more responsive to other concerns that arise along the way. Next we will be settling teams into specific areas and/or activities in order to better address the activities which tend to be more visible or frequent. This month we will begin fertilizing the turf and the shrubs. In The Colony, we have begun to see the results of our contracted pesticides applications. So far I have been impressed with the level of attention provided to us. We'd fallen behind on the weeds in the turf since Don retired. Ricky with Soto Lawn has been diligent in getting us caught back up, which unfortunately tends to result in brown patches (dead weeds) in the grass. I have instructed our team to address these as they appear by pulling out the brown. Now that we are in season, fertilizer applications will be performed also by Soto Lawn.

### Irrigation:

We've measured some rain since last report, almost 8", mostly coming the week of October 2nd. This has helped some in raising the level of our irrigation lake but we are still way, way behind in terms of future water availability. There is still quite a deficit upstream.

Phase Two Pumps Schedule:

Off - Sunday 10am until Tuesday at 7am

Activities of the Irrigation Department:

1. Sustainability - Our chief objective is to provide a sustainable irrigation water source while managing the watershed between the cycles of the wet and dry seasons, to support a thriving native landscape throughout Pelican Landing and The Colony.

- 2. Water Management Sluice gates remain closed. Proposal to paint them.
- 3. Pumping Stations Both stations fully operational.
- 4. Meter Maintenance We are targeting zero consumption meters for replacement.
- 5. Alterations None to report today.
- 6. Water Quality Bay Creek is in pretty good shape. Bayside filtration is working overtime and performing adequately.
- 7. Wet Checks Our team systematically turns on and audits every sprinkler zone in the

district, making necessary adjustments and repairs.

8. Reporting - Manage, monitor, and report all incoming and outgoing irrigation water usage, along with sluice gate activities in accordance with our permits issued by South Florida Water Management District.

Regards, Paul Kemp Field Manager Bayside/Baycreek CDD pelicanlandingcdds.net
